Present Land Use/Zoning/General Plan Designation:
Campus Support (under UC Santa Cruz 2005 Long Range Development Plan)

Project Description: (please use a separate page if necessary)
The Project would replace the UC Santa Cruz Campus’ existing cogeneration equipment with a new, 4.2 megawatt (MW) natural gas-fueled combustion turbine generator. Waste heat from electricity generation would be used to pre-heat water for campus boilers. The equipment would be installed in a new, 4,250-sf building adjacent to the existing cogeneration plant. The existing cogeneration equipment would be decommissioned when the new equipment is operational. The project also includes upgrades to the Campus electrical system to accommodate the new facility. The project would require improvements to the PG&E natural gas distribution line serving the campus to provide adequate, reliable pressure in the gas line that serves the cogeneration plant. The Campus would obtain a timberland conversion permit and prepare a timber harvest plan.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Revised 2008
### Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X". If you have already sent your document to the agency please denote that with an "S".

- Air Resources Board
- Boating & Waterways, Department of
- California Highway Patrol
- Caltrans District #5
- Caltrans Division of Aeronautics
- Caltrans Planning
- Central Valley Flood Protection Board
- Coachella Valley Mtns. Conservancy
